

Welcome to the June newsletter from SKIPPER Electronics AS.

Microsoft Teams seminars!

Due to great success with the two first seminars, we are now going to arrange the following seminars:

10.06.2020 at 10:00 CET/Paris time
SKIPPER Calibration by Paul Connelly.

Calibration of speed logs part 1:

Presentation of how to use the DL2 during sea trial, to get good performance. , suitable for anyone who needs to do a calibration.

10.06.2020 at 11:00 CET/Paris time
SKIPPER Advanced Calibration and Diagnostics of DL2 part 2 by Paul Connelly

Calibration of speed logs part 2:

Follow on from part 1, (with a coffee break) Further information of how to get the DL2 speed log to reliably measure 1% accuracy, and how to post process the data logged during sea test or remotely by the user - This is quite technical and most suitable for people that are familiar with the equipment

10.06.2020 at 16:00 CET/Paris time
SKIPPER Sales open meeting by Sigurd Hekk Paulsen

This 30-40 minute seminar is important for all project and sales personell selling SKIPPER equipment. Sigurd will take you through the latest products, and related parts and options explaining the differences and the advantages. The sales and technical team will be part of this answering questions underway.

17.06.2020 at 10:00 CET/Paris time
SKIPPER INS open meeting by Paul Connelly

Integrated solutions

How do we do it today with applications and how we plan to do it tomorrow. We go through the existing solutions and future methods (SKIPPER web implementation as described by openbridge). Meeting for integrators, discussion of methods of approval, issues being tackled and issues that need to be tackled.

17.06.2020 at 16:00 CET/Paris time
SKIPPER Technical product introduction by Paul Connelly

This 30-40 minute seminar is designed for project and technical personnel giving an insight of the functions of the new products, and options. How to set up and check the equipment. The technical team will be available for questions throughout the seminar.

In order to join these seminars use the following link:
