SPACER VARIATIONS IN KEYBOARD VER D

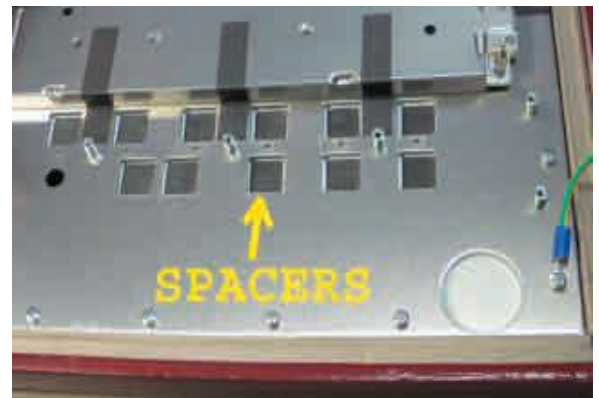

There are two types of buttons on the GDS101 keyboard ver D.

- 1: White buttons
- 2: Blue buttons.

Blue buttons were used in production in 2005.
Serial no from 052387 to 052450

In front of buttons there is a spacer.
(Between buttons and overlay of front.)

Because of differences in height of buttons there is a need of an additional spacer with the blue button keyboard
