New Synthesized Thermal Weather Facsimile Receiver:

SKIPPER Electronics will introduce a Synthesized Thermal Weather Facsimile Receiver – TF-708 from Taiyo. It is already available for sales, but we will have some delivery time.

Highlights:

- 8 inch wide high quality thermal printing
- Automatic reception with start/stop control, optimum frequency selection, phase matching and speed/IOC selection
- Timer programming for automatic recording up to 16 programs per week
- Date and time are automatically printed when the APSS automatic stop signal is received
