

Welcome to the January edition of SKIPPER Newsletter.

Sales

New junction box for the EML224 (JB12):

SKIPPER has now developed a new junction box for the EML224. This junction box is designed to be connected between the sensor (EML224SXX-XX) and the JB60XX-XX Electronic unit if the cable length between these is more than the 40 m cable included with the sensor.

SKIPPER will be present at the Vietship Exhibition in Hanoi:

The Vietship Exhibition will be held in Hanoi 28. February to 01. March 2012.
For a meeting during this exhibition, please send an e-mail to Sigurd@skipper.no.

Technical

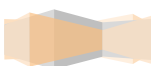

Training Schedule:

SKIPPER Electronics and Norinco Pvt Ltd. are happy to announce that we will be holding an advanced training course in Mumbai, from March 7 to 9th .and if necessary 12-14th. This course will cover all the running products, GDS, DL850 and EML (SKIPPER Echo Sounders and Speed Logs), for installation, service and repair. The course will be tailored to the Indian market, with extra emphasis on diagnostic and repair.

Places are limited, so early show of interest is necessary.

More details shortly.

Send your registration to support@skipper.no.
