New software for GDS101:

A new software is now released for the SKIPPER GDS101 Echo Sounder.

Normal bug fixing is done and some new functionality:

- Clearer indication of the depth being displayed on screen (DBT,DBS,DBK)
- NMEA alarm messages changed to work with known systems

The latest software version is now 5_05_16_GDS101(4), and can be [downloaded here](#).

Company evaluation

SKIPPER would like your feedback regarding our products and service. The evaluation will take 2 minutes. [Please access the evaluation here!](#)

ISO 9001:2008 certificate renewal

The ISO accredited Teknologisk Institutt (TI) did, on the 17th October, perform a recertification audit at SKIPPER Electronics. We are happy to announce that the renewal audit passed perfectly, and TI has issued a new ISO 9001:2008 certificate to SKIPPER Electronics.

Below, the summary and conclusion from the recertification audit report:

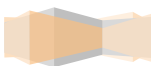

“SKIPPER Electronics AS has made great improvements with the introduction of a process-oriented management system. It is significantly easier to get to remote communication when it comes to products, product mix and pricing of this on internet. It is implemented a very trustworthy system for development projects, which makes it possible to handle multiple, both small and large development projects simultaneously.

It's planned introduction of a new compliance system that will make the handling and analysis of non-conformities easier.”

[The new certificate can be downloaded here.](#)

Technical

Training course in China is full:

We have expanded the training course in China with an extra service course. Now both courses are full and we have closed down the registration for these courses.
