

Instrument: EML224
SDB_EML224_06 New Sensor version _2011_05_04

Date: 04.05.2011
Created by: Geir Theodorsen

New version of EML224 sensors

The new design improves the following factors.

- A) Flush pins – The pins are now truly flush to reduce damage by objects scraping.
 - B) New power supply, allowing the sensor unit to be powered by voltages right down to 15V.
- The new version is 100% compatible with the old in fit, form and function.
The new version is implemented starting at serial number 111000.

NEW SENSOR EML224SG-SD

OLD SENSOR EML224SG-SC

New Part numbers valid from February 2011

EML224SX-SD	LOG SENSOR FOR PCSV60 GATE VALVE COMPLETE EML, 40mtr
EML224ST-SD	LOG SENSOR FOR TANK COMPLETE EML224, 40mtr SKIPPER
EML224STA-SD	LOG SENSOR FOR COMBO ALUTANK COMPLETE EML224, 40mtr SKIPPER
EML224SS-SD	LOG SENSOR FOR SAGEM Fittings EML, 40mtr ungrounded
EML224SN-SD	LOG SENSOR EML224, FOR SIMRAD NL-LOG, 40 m Ungrounded
EML224SG-SD	LOG SENSOR FOR SB/DB GATE VALVE COMPLETE EML, 40mtr SKIPPER
EML224SDB-SD	LOG SENSOR FOR SB/DB-100-SA GV COMPLETE EML224, 40mtr
