

## SKIPPER Newsletter

January 2023

Hi

Welcome to January Newsletter from SKIPPER Electronics!

**New touch display coming soon:**

The current 9" displays will be replaced in the next few years by a new 10.1" display. We therefore recommend that when designing bridge consoles for these displays, extra room is left for later replacements or service.

The space allowed should now be at least 300x220mm

We have updated the mounting spec in manuals and datasheets to reflect this, these can be downloaded from the webpage.

[The CU-M001-SB 9" Display datasheet can be found here!](#)

[The CU-M101-SA 10.1" Display datasheet can be found here!](#)

### **SKIPPER technical training 2023:**

#### **Training topics:**

Basics, installation and service of all present SKIPPER speed logs and Echo sounders.

ESN100/ESN200/DL1/DL2/DL21/EML224/SL1200

Introduction and installation of next generation Displays and Electronic units planned to be released in 2023.

The first units to be released are the EML speed logs EML1200/EML1100/EML2

18.-20. April 2023 - Singapore - Jason Electronics - 3 days

31. May - 02. June 2023 - Oslo, Norway - SKIPPER Electronics - 3 days

21.-22. June 2023 - Houston, USA - TBA - 2 days

October/November 2023 - China - TBA - 3 days

For booking of attendance for trainings please email [support@skipper.no](mailto:support@skipper.no).

### **Delays due to world shortage of components!**

Producing electronics is a challenge at the moment, we are doing all we can to secure components for our products for the next years. Sometimes things do not arrive when promised, and this causes knock-on delays. We are informing you of delays as soon as we ourselves know. We kindly ask for your patience in these cases, Contact us if the delays cause you large problems, and we will try to find alternative solutions.

We are sorry for the inconvenience this may cause! **We encourage you to place your order as early as possible!**

We do also experience increase in freight cost and delays throughout the market!

It does not seem like this situation will resolve anytime soon!

At the moment we have 6 months delivery for the following products:

- DL850 270 kHz sensor - all versions
- ETN200FSX (Alternative is ETS50200 dual transducer)
- ETN200SXG (Alternative is ETS50200 dual transducer)
- ETN200SXT (Alternative is ETS50200 dual transducer)

Longer delivery also on the following products:

- All compact displays
- DL1, DL2 and DL21 sensors
- JB60 Electronics

### **SKIPPER marketing videos:**

SKIPPER has now produced several videos to be used freely on stands in exhibitions etc.
