

Welcome to June Newsletter from SKIPPER Electronics!

### **SATLOG from SKIPPER!**

SKIPPER develop and produce Navigational Echo Sounders and Speed Logs in Norway. The SL1200 is SKIPPERs SATLOG. It provide Speed Over Ground (SOG) in two or three axis. It is an approved SDME (Speed and Distance Measuring Equipment). The speed limits are 99.9 to -99.9 knots.

### **Price increase and delays due to Covid 19!**

All SKIPPER's suppliers are now increasing prices on parts needed to build SKIPPER products. Due to this fact SKIPPER is now forced to increase prices on most of the products. The price-increase will be effective from September 2021. SKIPPER is now also experiencing delivery delay from most of our suppliers. This may influence the delivery performance from SKIPPER onwards. We are sorry for the inconvenience this may cause! We do also experience increase in freight cost throughout the market!

### **SKIPPER NMEA Dimmer**

IR31DIM-SA is SKIPPER's 2 channel NMEA remote dimmer. In addition Pulse dimmer is available. It is also possible to use auto light detection to automatically dim the connected displays.

Please send your RFQ to [sales@skipper.no](mailto:sales@skipper.no)

## Training courses in 2021

We are sorry to inform that due to the uncertain situation with the COVID-19, we have decided to cancel the SKIPPER technical trainings.

New dates for the training courses will be announced as soon as the situation has normalised. We are planning new interactive web courses. Please send an e-mail with the courses you are interested in to [service@skipper.no](mailto:service@skipper.no). If you have any questions regarding training courses contact: [support@skipper.no](mailto:support@skipper.no).
