Remote Gyro/HDT/THS indicator

Digital repeater

Gyro course

NMEA signals

HDT/THS

DGR 360 is a digital gyro repeater that displays the Heading Angle in the LED segment display and indicates the Direction of Turn with 30 dual-color surrounding LED's, changing from green to red colour depending on the direction of turn.

SKIPPER Electronics manufacture marine electronics for the merchant fleet as well as the fishing fleet, based on experience, research and tradition. Our products are known worldwide for reliability, sophistication and good value for money.

Features:

Digital gyro repeater
Heading angle
HDT/THS signals
Bracket or panel mounting.

The DGR 360 will display Heading Angle given by the heading message from a gyro or other equipment (NMEA0183, Version 2.30) and indicate Direction of Turn by calculating change in heading based on the HDT/THS input and the time between each message.

The dimming may be controlled by pressing the dimming key or by using an external dimming key.
